

VMWARE vREALIZE OPERATIONS MANAGEMENT PACK FOR

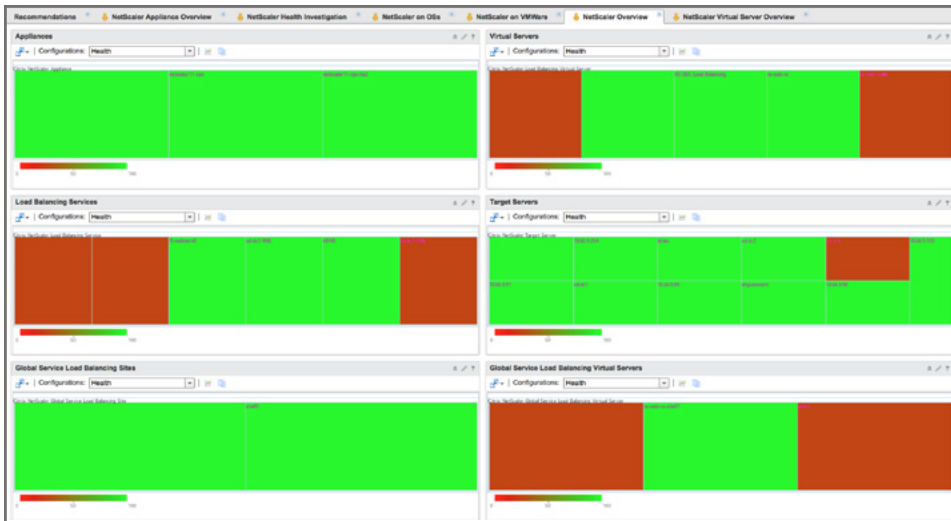

# Citrix NetScaler

The Blue Medora Management Pack for Citrix NetScaler collects performance data from critical NetScaler resources and makes it available within the VMware vRealize Operations (vROps) monitoring platform.

## Extend vRealize Operations to Citrix NetScaler

The Blue Medora vRealize Operations Management Pack for Citrix NetScaler extends VMware vROps by enabling customers to gain comprehensive visibility and insights into the performance, capacity, and health of their Citrix NetScaler workloads running on VMware.

The Management Pack for Citrix NetScaler collects performance data from critical NetScaler resources (appliances, virtual servers, load balancing services) and makes it available within VMware vRealize Operations (vROps). Administrators are able to manage, monitor, and troubleshoot their entire Citrix NetScaler environment within a single console.

### Expose Key NetScaler Performance Metrics in vROps

- Virtual Server Health
- # Client Connections
- # Server Connections
- Service Data Throughput
- Appliance Data
- Virtual Server Data
- Service Responsiveness
- Throughput
- Throughput

### Supported Platforms

**vRealize Operations**  
(Advanced or Enterprise Edition)  
Version 6.x

**Citrix NetScaler**  
Application Delivery Controller 10.x  
Hardware versions: MPX 10.x  
Software versions: VPX 10.x  
API: Nitro REST API 11.0+

*Additional platforms are added periodically. Visit [bluemedora.com](http://bluemedora.com) for the most up-to-date platform support.*

### KEY ADVANTAGES

- **End-to-end visibility.** Identify potential issues in your Citrix NetScaler environment before they spread to the next layer of the stack.
- **Be proactive.** Stay ahead of issues in your Citrix NetScaler environment with vROps' predictive analytics.
- **Capacity and health awareness.** Stay ahead of issues with vROps' predictive analytics in Citrix NetScaler. The Management Pack provides capacity definitions to fully exploit vRealize Operations 6.x.
- **Relationship mapping.** Instantly view relationships within Citrix NetScaler, out to the virtual layer and beyond.

**AVAILABLE NOW**

This Management Pack is now available for purchase. Learn more and download a fully supported trial at [bluemedora.com](http://bluemedora.com).

VMWARE VREALIZE OPERATIONS MANAGEMENT PACK FOR

# Citrix NetScaler

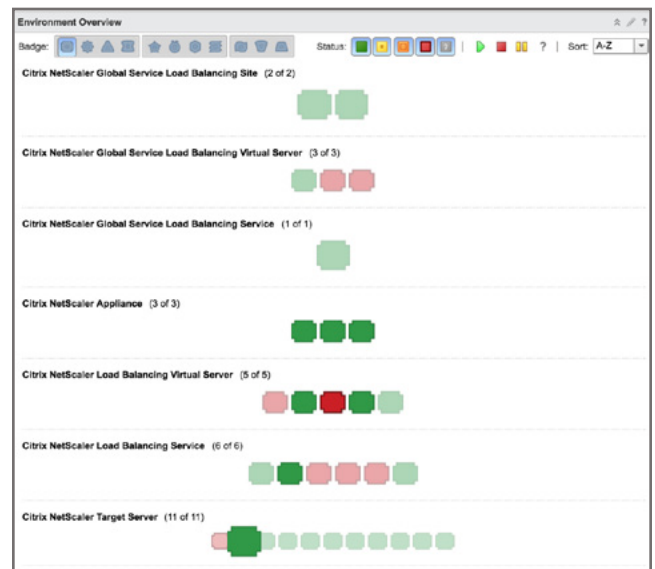

Centralize your infrastructure monitoring by leveraging your existing investment in vRealize Operations.

## See More with Operational Dashboards

The Management Pack for Citrix NetScaler enhances VMware vRealize Operations Manager by adding the following capabilities:

- **Operations Dashboard.** Provides at-a-glance views into health, risk and efficiency of your virtualized as well as non-virtualized Citrix NetScaler infrastructure.
- **Workload Details View.** Get in-depth analysis of what is impacting performance and health of your Citrix NetScaler workloads.
- **Proactive Smart Alerts.** Automated root cause analysis provides advanced notification of building issues with Citrix NetScaler environments before end users are impacted.
- **Heat Map Views.** Get visibility into all areas of Citrix NetScaler infrastructure to identify resource constraints and bottlenecks.

## Analyze Health and Relationships

View alerts, health, status, and relationships for various Citrix NetScaler resources to receive a broad picture of your entire system. Understand your Citrix NetScaler workloads today and prepare for tomorrow.
