

VMWARE VREALIZE OPERATIONS MANAGEMENT PACK FOR

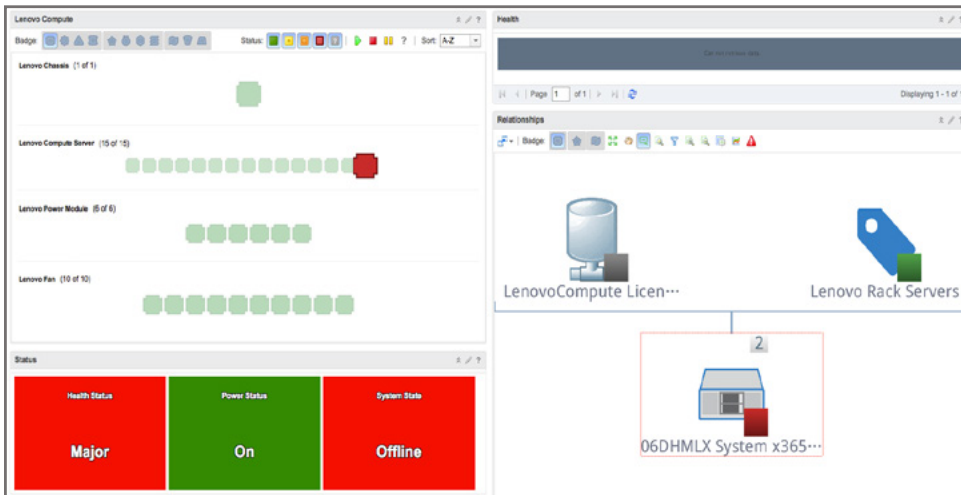

Lenovo Compute

The Blue Medora Management Pack for Lenovo Compute collects performance data from critical Lenovo Compute resources and makes it available within the VMware vRealize Operations (vROps) monitoring platform.

Extend vRealize Operations to Lenovo

The Blue Medora vRealize Operations Management Pack for Lenovo Compute extends VMware vROps by enabling customers to gain comprehensive visibility and insights into the performance and health of their Lenovo Compute workloads running on VMware.

With the Management Pack for Lenovo Compute, administrators are able to manage, monitor, and troubleshoot their entire Lenovo Compute environment within a single console. The Management Pack for Lenovo Compute monitors Lenovo rack servers and flex devices remotely. It connects with either the XClarity user interface or Lenovo Compute hardware directly to retrieve data regarding resources.

Expose Key Lenovo Performance Metrics in vROps

- Health states for rack servers, chassis, fans, and power modules
- Chassis uptime
- Number of processes
- Maximum processes
- Chassis switch modules
- Power module
- Fan modules supported

Supported Platforms

vRealize Operations
(Advanced or Enterprise Edition)
Version 6.x

Lenovo
XClarity v1.0.1
SNMP v2c

Additional platforms are added periodically. Visit bluemedora.com for the most up-to-date platform support.

KEY ADVANTAGES

- **End-to-end visibility.** Identify potential issues in your Lenovo Compute environment before they spread to the next layer of the stack.
- **Machine learning capabilities.** Extend vRealize Operations' capabilities to Lenovo Compute.
- **Up-to-the-minute status and health awareness.** Stay ahead of Lenovo Compute issues with vROps' predictive analytics. The Management Pack provides alerts, views, and reports to fully exploit vRealize Operations 6.x.
- **Relationship mapping.** Instantly view relationships between Lenovo Compute resources.
- **Alerting and recommendations.** View Lenovo Compute alerts and expert recommendations directly within vROps.

AVAILABLE NOW

This management pack is now available for purchase. Learn more and download a fully supported trial at bluemedora.com.

VMWARE VREALIZE OPERATIONS MANAGEMENT PACK FOR

Lenovo Compute

vmware
PARTNER

TECHNOLOGY
ALLIANCE

Centralize your infrastructure monitoring by leveraging your existing investment in vRealize Operations.

See More with Operational Dashboards

The Management Pack for Lenovo Compute enhances VMware vRealize Operations Manager by adding the following capabilities:

- **Operations Dashboard.** Provides at-a-glance views into health, risk and efficiency of overall Lenovo Compute infrastructure.
- **Workload Details View.** Get in-depth analysis of what is impacting performance and health of Lenovo Compute workloads.
- **Proactive Smart Alerts.** Health status and events are pulled from Lenovo Compute resources and displayed in vRealize Operations as alerts.
- **Heat Map Views.** Get visibility into Lenovo rack servers and flex devices to identify resource constraints and bottlenecks.

Analyze Health and Relationships

View alerts, health, status, and relationships for various Lenovo Compute resources to receive a broad picture of your entire system. Understand your Lenovo Compute workloads today and prepare for tomorrow.
