

VMWARE VREALIZE OPERATIONS MANAGEMENT PACK FOR

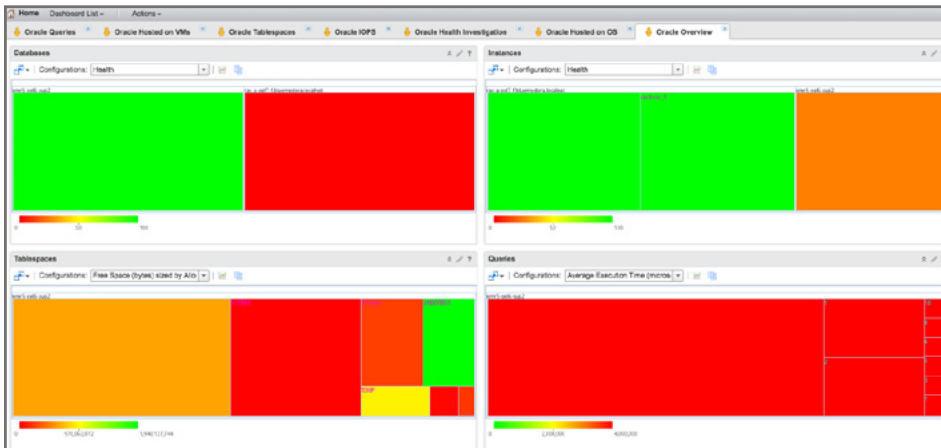

# Oracle Database

The Blue Medora Management Pack for Oracle Database collects performance data from Oracle database resources and makes it available within the VMware vRealize Operations (vROps) monitoring platform.

## Extend vRealize Operations to Oracle Database

The Blue Medora vRealize Operations Management Pack for Oracle Database extends VMware vRealize Operations by enabling customers to gain comprehensive visibility and insights into the performance, capacity, and health of their workloads running on Oracle Database.

With the Management Pack for Oracle Database, administrators are able to manage, monitor, and troubleshoot their entire Oracle Database environment within a single console. The Management Pack for Oracle Database monitors Oracle Database systems remotely. It connects directly through a JDBC connection to retrieve data regarding Oracle Database databases and their performance.

## Expose Key Oracle Database Performance Metrics

- I/O Throughput
- Control File Size
- Session Limit
- Average I/O Time
- Redo Log File Size
- Buffer Cache Hit Ratio
- Row Cache Hit Ratio
- Process Limit
- Cursor Cache Hit Ratio

## Supported Platforms

**vRealize Operations**  
(Enterprise Edition Only)  
Version 6.x

**Oracle Database**  
Version 11.2+

*Additional platforms are added periodically. Visit [bluemedora.com](http://bluemedora.com) for the most up-to-date platform support.*

## KEY ADVANTAGES

- **End-to-end visibility.** Identify potential issues in your Oracle Database environment before they spread to the next layer of the stack.
- **Alerting capabilities.** Includes alerts and detailed recommendations for faster solutions.
- **Relationship mapping.** Instantly view relationships within Oracle Database, out to the virtual layer and beyond.
- **Understand your current workload.** With at-a-glance views of memory, CPU, and disks, plan database expansion and consolidation with confidence.

**AVAILABLE NOW**

This Management Pack is now available for purchase. Learn more and download a fully supported trial at [bluemedora.com](http://bluemedora.com).

VMWARE VREALIZE OPERATIONS MANAGEMENT PACK FOR

# Oracle Database

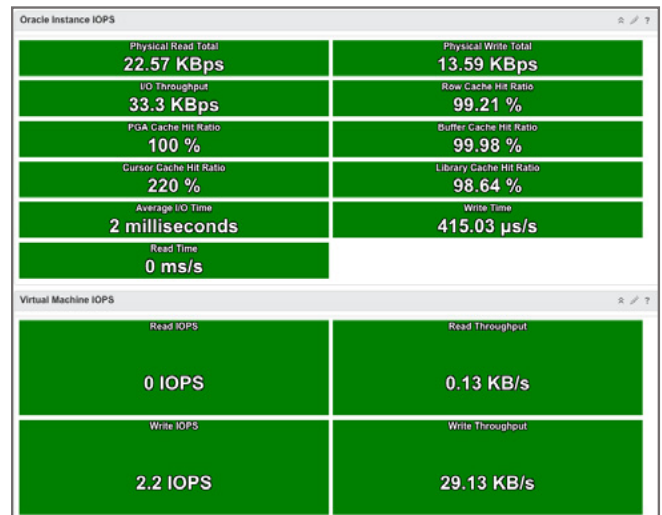

Centralize your infrastructure monitoring by leveraging your existing investment in vRealize Operations.

## See More with Operational Dashboards

The Management Pack for Oracle Database enhances VMware vRealize Operations Manager by adding the following dashboards:

- Oracle Queries
- Oracle Hosted on VMs
- Oracle Hosted on OSs
- Oracle Tablespace
- Oracle IOPS
- Oracle Health Investigation
- Oracle Overview

## Harness the Power of Metrics

The Management Pack for Oracle Database collects over 350 Oracle Database metrics including health, availability, and performance. Synthetic metrics like memory health, CPU health, and disc health provide unique health insights that are exclusive to the Management Pack. Every metric provided can be used in out-of-the-box custom reports and available to schedule daily, weekly, or monthly email delivery.
